

BULLETIN OF ZOOLOGICAL NOMENCLATURE

Volume 71, part 3 (pp. 145–213)

30 September 2014

Notices

(1) Applications and correspondence relating to applications to the Commission should be sent to the ICZN at the address given on the inside of the front cover and on the Commission website. English is the official language of the *Bulletin*. Please take careful note of instructions to authors (present in a one or two page form in each volume and available online (at <http://iczn.org/content/guidelines-case-preparation>) as incorrectly formatted applications will be returned to authors for revision. The Commission's Secretariat will, where possible, answer general nomenclatural (as opposed to purely taxonomic) enquiries and assist with the formulation of applications and, as far as it can, check the main nomenclatural references in applications. Correspondence should preferably be sent by e-mail to 'iczn@nhm.ac.uk'.

(2) The Commission votes on applications eight months after they have been published, although this period is normally extended to enable comments to be submitted. Comments for publication relating to applications (either in support or against, or offering alternative solutions) should be submitted as soon as possible. Comments may be edited (see instructions for submission of comments at <http://iczn.org/content/instructions-comments>).

(3) Requests for help and advice on the Code can be made direct to the Commission and other interested parties via the Internet. Membership of the Commission's Discussion List is free of charge. You can subscribe and find out more about the list at <http://list.afriherp.org/mailman/listinfo/iczn-list>.

(4) The Commission also welcomes the submission of general-interest articles on nomenclatural themes or nomenclatural notes on particular issues. These may deal with taxonomy, but should be mainly nomenclatural in content. Articles and notes should be sent to iczn@nhm.ac.uk.

New applications to the Commission

The following new applications have been received since the last issue of the *Bulletin* (volume 71, part 21, 30 June 2014) went to press. Under Article 82 of the Code, the prevailing usage of names in the applications is to be maintained until the Commission's rulings on the applications (the Opinions) have been published.

CASE 3663: *Peckhamia* Simon, 1901 (Araneae, SALTICIDAE): proposed conservation by suppression of a senior synonym. D. Richman.

CASE 3664: *Tipula contaminata* Linnaeus, 1758 (Insecta, Diptera; currently *Ptychoptera contaminata*): proposed conservation of prevailing usage through designation of a neotype. A. Fasbender and G. W. Courtney.

CASE 3665: *Musca purpurascens* Walker, 1836 (Insecta, Diptera, CALLIPHORIDAE): proposed conservation of prevailing usage of specific name by setting aside the unidentifiable female holotype and replacing it with a male neotype. T. Whitworth & K. Rognes.

CASE 3666: DICROGLOSSIDAE Dubois, 1987 (Amphibia, Anura): proposed conservation. A. Ohler, A. A. Thasun Amarasinghe, F. Andreone, A. Bauer, L. Borkin, A. Channing, Y. Chuaynkern, I. Das, K. Deuti, T. Frétey, M. Matsui, T. Nguyen, R. A. Pyron, M. O. Rödel, G.H. Segniagbeto, K. Vasudevan & A. Dubois.

CASE 3667: Proposed suppression of *Paludina conica* Férussac, 1814, with the preservation of *Paludina conica* Prévost, 1821 (currently '*Peringia*' *conica*) (Gastropoda, Prosobranchia, HYDROBIIDAE). D. Kadolsky.

CASE 3668: *Conus antidiluvianus* Bruguière, 1792 (Mollusca, Gastropoda, CONIDAE): proposed conservation of prevailing usage of specific name by setting aside the unidentifiable lectotype and replacing it with a neotype. A.W. Janssen, R. Janssen, S. Tracey, L.M.B. Vaessen & J. van der Voort.

CASE 3669: ORTALIDAINI Donegan, 2012 or ORTALISINI Donegan, 2012 emend David, 2014 (Aves, CRACIDAE): proposed conservation. T.M. Donegan.

CASE 3670: *Chilicola vicugna* Toro & Moldenke, 1979 (Insecta, Hymenoptera, COLLETIDAE): proposed replacement of a holotype by a neotype. S.K. Monckton.

Notice

Commissioner Professor Susan Lim 1952 – 2014

It is with deep regret that we report the passing of Commissioner Professor Susan Lim on 2 August 2014 after a long illness. Susan Lim was a Commissioner of the ICZN from 2006 until the end of her life, and was able to participate in the 2014 Commissioners' meeting in Singapore. She was one of the most productive taxonomists of Monogenea (Platyhelminthes) of her generation. In an active career at the University of Malaysia (Kuala Lumpur) spanning 43 years, she described over a hundred species of these fish parasites. An obituary will be published in the next issue of the BZN.

Commissioner Professor Zbigniew Kabata 1924 – 2014

It is our sad duty to announce, on 4 July 2014, the passing of former Commissioner Professor Zbigniew Kabata. He served in the Polish Armia Krajowa during World War II, and went on to become a highly respected parasitologist, and a Commissioner of the ICZN 1984–1999. During his career he was awarded the A. Wardle Medal by the Canadian Society of Zoologists, the K. Janicki Medal by the Polish Parasitological Society and the K. Demel Medal by the Sea Fisheries Institute in Gdynia, Poland. An obituary is in preparation for publication in another journal (Mackiewicz, in press).
